

PAR64 64738/4 NSP

PAR64 | Halogen lamps with parabolic reflector PAR64, with pin base

Areas of application

- Events
- Performances
- Stage productions

Product family benefits

- Easy lamp replacement
- Flexible operating position

Product family features

- The parabolic glass reflector and the front lens are fused together
- High luminous intensity
- Available in different beam angles to ensure high flexibility

Safety advice

To prevent personal injury or damage to property, halogen lamps may only be operated in suitable luminaires designed with suitable mechanisms (cover panel etc.) to ensure that in the event of a lamp bursting no parts/shards can escape and that during operation no ultraviolet radiation can escape. Because of the heat produced only heat-resistant lamp connections (holders) may be used. Do not operate near people, or any materials that are flammable, sensitive to heat or affected by drying out. Detailed information is available on request.
