

X-RACER

Bluish-white light for xenon look

Xenon look

Bluish-white light for stylish xenon look

Up to 4,200 Kelvin

High contrast and brilliantly blue light for most stylish and modern look on the road

Vibration resistance

Tested for the unusually high loads caused by speed and changing road surfaces

The bluish-white light with up to 4,200 K

X-RACER motorcycle lamps provide modern, bluish-white light with a color temperature of up to 4,200 Kelvin. This up to 20% brighter light is very pleasant for the rider and approximates due to its bluish "xenon look" to the light of xenon lamps. The cool blue coating and stylish silver cap gives the lamps an unmistakable appearance. With their vibration resistant technology, the lamps are tested under real conditions for the unusually high loads caused by speed and changing road surfaces.
