

# LEDiving XENARC BLACK Edition VW Golf VI

LED headlights

**Up to 70% more light**

For better visibility and significantly shorter reaction times compared to standard headlights with halogen lamps

**Up to 20 m longer light cone**

For improved visibility and less eye strain compared to standard headlights with halogen lamps

**Up to 40% whiter light**

For fatigue-free and comfortable driving compared to standard headlights with halogen lamps

LEDiving XENARC Golf VI - BLACK – this premium LED headlight by OSRAM swathes the entire headlight in high-gloss black perfection. Thanks to state-of-the-art lightguide technology, the LEDiving XENARC light with pixel-free optic generates a maximum of light on the road: a an up to 20 m longer light cone and up to 70% more light than standard headlights with halogen lamps. This means better visibility and more time to react. Added to this, is the up to 40% whiter light compared to standard headlights with halogen lamps. The LEDiving XENARC Golf VI – BLACK edition allows simple, quick self-installation with plug and play. OSRAM offers a 2 year guarantee on the LEDiving XENARC Golf VI headlights. Note: Upgrading to the ECE-approved LEDiving XENARC headlight complies with all legal requirements – no need to fit automatic leveling or a headlight-cleaning system. Suitable for right-hand traffic (LEDHL102-BK) and left-hand traffic (LEDHL102-BK RHD). Not for sale in USA.
