

## HMI brand STUDIO

Metal halide lamps, single-ended

### Areas of application

- Studio
- Stage
- TV

### Product family features

- Warm tungsten color temperature
- Plug-n-play option for daylight fixtures
- Two times brighter light than tungsten halogen lamps with similar wattages
- Lifetime identical to traditional OSRAM HMI lamps
- High CRI of >90
- UV-Stop (UVS) eliminates 99.9% of UVB and UVC emissions

## Product family datasheet

---

### Safety advice

Because of their high luminance, UV radiation and high internal pressure during operation, HMI lamps may only be operated in enclosed lamp casings specially constructed for the purpose. Appropriate filters must ensure that UV radiation is reduced to an acceptable level. Mercury is released if the lamp breaks. Special safety precautions must be taken. Information on safety and handling is available on request or can be found in the leaflet included with the lamp or in the operating instructions.
