

LEDiving headlight for VW Golf VII

Full LED redesign made easy - and legal

Up to 200% more light

More light allows to see farther and therefore react faster thanks to pixel-free optic and state-of-the-art lightguide technology compared to minimum ECE R112 requirements

Up to 200 m long light cone

Better visibility due to daylight effect with easy plug & play installation without modifying or damaging existing cables

Up to 100% whiter light

High contrast and brilliantly cool white LED light for most stylish look on the road when compared with standard headlights with halogen lamp when compared with standard headlights with halogen lamp

The OSRAM LEDiving headlights for VW Golf VII offer a legal performance and outstanding design upgrade for halogen-based or high intense discharge (HID)-based VW Golf VII models. All the lighting functions feature state-of-the-art LED technology: low beam, high beam, daytime running, position and turn indicator lights. Road safety also plays a major role. OSRAM offers a 2-year guarantee on the LEDiving Golf VII headlights. For precise guarantee conditions please refer to www.osram.com/am-guarantee. Not for sale in USA.

Legal advice

The LEDriving headlights are fully ECE compliant for a replacement of OEM halogen headlights and therefore registration free. This does not include individual custom requirements of countries, in addition to the standardized ECE certification of the product.

This product is not suitable for left-hand traffic.

Only suitable for VW Golf VII car models with OEM halogen or OEM xenon-headlights with halogen daytime running light. These products are not for sale in the US.

Application advice

For more detailed application information and graphics please see product datasheet.
