Durable reliability

**Light is safety. See better and be seen better with OSRAM.**

Light is safety. See better and be seen better with OSRAM. The LEDguardian Road Flare GER is a compact LED warning light for various situations on the road and for minor inspection work on your car. The rotating warning light function of the LEDguardian Road Flare GER, which emits orange light through 360 degrees by rotation, is visible from a great distance with up to 240 meters and can provide decisive information about a dangerous situation in case of emergency. Increased safety for you and others on the road. 16 high-quality long-life LEDs with 25lm and 6000K provide three distinctive operating modes: 360° rotating amber warning light function, permanent amber light function and white torch light function. In addition, this LEDguardian Road Flare GER impresses with its non-slip, dirt-repellent surface, a convenient hook for the attachment and in particular it is so robustly manufactured and so resistant that it can even be run over by a car\*\* without losing any performance. The LEDguardian Road Flare GER was tested and validated for extreme external influences concerning water, dust and shocks caused by falls in our certified environmental simulation laboratory. With the IP protection class IP54 & IK07 the LEDguardian Road Flare GER is resistant against water, dust and impacts. With the three AAA batteries which are included the warning light is ready-to-use directly after purchase. OSRAM grants a 2 year guarantee\* for this product.
