

Lightbar SX180-SP

Improved safety on-road and off-road with the full force of LEDs

Compact housing design

Compact mounting dimensions enables a wide range of possible applications

Lighting distance up to 190 meters

Increased far field illumination

Spot Beam

Highly concentrated light beam

Durable and robust LED auxiliary light with certified approval for use on roads

Bright light is particularly critical on unlit streets and dirt roads. It lets drivers identify obstacles on the road far in advance. With its six high-performance LEDs, the LEDDriving Lightbar SX180-SP automotive auxiliary light gives drivers better visibility and improved safety on the road. And the LED auxiliary light also impresses at shorter distances. With an illuminance of one lux and a beam angle of eight degrees, the beam of light can reach up to 190 meters. That's sufficient enough to identify obstacles on the road far in advance. The sophisticated reflector design of the LED search light provides very high optical efficiency with uniform light distribution and reduced glare. Reduced glare is especially relevant for oncoming traffic and counts as another important aspect of road safety. Beyond its light output, the LED high beam enhances the off-road style of the vehicle. Because the LED auxiliary light with certified approval is intended for roads, its use is not limited to off-road terrain. Various mounting options & durability It goes without saying that the LED auxiliary light has to withstand quite a bit when used almost daily. Its hard-wearing polycarbonate lens allows it to meet even the toughest demands while extending the lifespan of the auxiliary light for automobiles. An integrated driver and thermal management system prevents possible damage from overheating. Over and under voltage protection automatically breaks the circuit when power exceeds the predetermined current for a specified amount of time. Even major temperature fluctuations aren't a problem for the LEDDriving Lightbar SX180-SP LED auxiliary lights. They work whether the air temperature is a very cold -30 or a hot 60 degrees Celsius. This is a very helpful feature, particularly during off-road tours. Its compact mounting dimensions allow the LED working light to be mounted in a variety of ways. The LED auxiliary light can be easily installed even on the front end of 4x4 and off-road vehicles as well as utility and industrial vehicles.

Product family datasheet

Technical data

	Product information		Electrical data			Photometrical data
Product description	Order reference	Application (Category and Product specific)	Nominal voltage	Nominal wattage	Test voltage	Luminous flux
Lightbar SX180-SP	LEDDL105-SP	Additional high beam application	12/24 V	15 W	13.5 V	1300 lm

	Lifespan	Capabilities	Certificates & standards		
Product description	Lifespan Tc	Technology	Type of protection	Approval marks – approval	Standards
Lightbar SX180-SP	5000 h	LED	IP69K	E4 approval	ECE R10, R112

	Logistical data	Environmental information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)			
Product description	Commodity code	Date of Declaration	Primary Article Identifier	Candidate List Substance 1	
Lightbar SX180-SP	85122000900	28-02-2024	4052899595415	Lead	

Product description	CAS No. of substance 1	Safe Use Instruction	Declaration No. in SCIP database
Lightbar SX180-SP	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.	a1bdcbc4-aa38-44ed-b994-4a48e9654415

Legal advice

In vehicles with 12/24 volts, auxiliary lights must be installed in pairs

Precise terms and conditions at: www.osram.com/guarantee

Application advice

For more detailed application information and graphics please see product datasheet.
