## STARTERcable 700A

Up to 700A peak amps For transferring the charging current to start even almost completely discharged batteries

Up to 5.5 liters Suitable for starting vehicles with a petrol or diesel engine with a capacity of up to 5.5L

**350A Continuous amp rating** For permanent current transmission and protection against overheating, a continuous amp rating of 350A is given

2-year OSRAM Guarantee\* Systematic quality assurance measures underpin the premium workmanship and functionality of our products. Innovative technology and excellent quality really pay dividends for our customers.

#### Classic starter cables from OSRAM

With a range of OSRAM starter cables, motorcycle, car, commercial vehicle and truck drivers now have a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle and thus become ready to drive again. The OSRAM BATTERYstart STARTER CABLE 700A is a high quality starter cable designed for professional and private use. The cables are made of copper coated aluminum which reduces the resistance of the cable and allows a constant and effective transmission of the charge. The starter cable has a length of 3.5 meters with a cross-sectional area of 25mm<sup>2</sup>. Thanks to the length and the cross-sectional area, it is possible to start vehicles with petrol and diesel engines with up to 5.5 liters of displacement, as a peak current strength of up to 700A can be achieved, at the same time a continuous amp rating of 350A is given. It is suitable for voltages of 12V and 24V. To prevent high wear and tear, the OSRAM BATTERYstart STARTER CABLE 700A is sheathed in flexible yet durable PVC, the insulated clamps and handles provide additional safety and durability. The different colors of the cables and the handles on the clamps reduce the risk of mixing up the positive and negative terminals and thus the risk of incorrect connection to the battery. The storage bag included in the scope of delivery allows the cables to be stored tidy and, in a space-saving manner. Conveniently, the operating instructions are also attached to the back of the storage bag and are thus quickly at hand. OSRAM offers a 2year guarantee\* on this product.

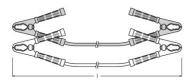

## Product datasheet

#### Technical data

### **Product information**

Engine type	Diesel / Petrol				
Electrical data					
Peak Amps	700A				
Continuous amp rating	350 A				

#### **Dimensions & weight**

Length	3000 mm
Width	200 mm
Height	900 mm
Cable length	35m
Cross section area	25 mm²
Engine size	≤ 5.5L

#### **Colors & materials**

#### **Environmental information**

## Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACh)

Date of Declaration	07-03-2024
Primary Article Identifier	4062172220910
Declaration No. in SCIP database	In work

#### Logistical Data

## Product datasheet

Product code	Product description	Packaging unit (Pieces/Unit)	Dimensions (length x width x height)	Volume	Gross weight
4062172220910	STARTERcable 700A	Bag 1	250 mm x 250 mm x 60 mm	3.75 dm³	7523.00 g
4062172220927	STARTERcable 700A	Shipping carton box 4	270 mm x 230 mm x 270 mm	16.77 dm³	7877.00 g

The mentioned product code describes the smallest quantity unit which can be ordered. One shipping unit can contain one or more single products. When placing an order, for the quantity please enter single or multiples of a shipping unit.
