

BATTERYcharge 5PIN | PORTABLE | Type 1

Charging Cable for electric and plug-in hybrid vehicles

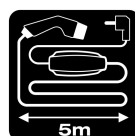

61016 Ampere

Variable charging currents of 6A/10A/16A meet individual charging requirements

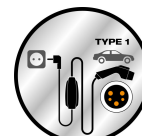

1.32.23.6 kWh

Variable charging rates of 1.3/2.2/3.6 kWh meet individual charging requirements

5m cable length

Ergonomic handles for optimal handling and a cable length of 5 meters

Charge at home and on the move

With a 230V socket to the vehicle with type 1 charging connection

Drive with OSRAM into a more emission-free future

Discover the world of electric driving with OSRAM. Charge your all-electric or plug-in hybrid type 1 vehicle on the road or at home from a 2-pin 230V socket. The charging cable is equipped with ergonomic handles for optimal handling and has a length of 5 meters. It is suitable for use at home or on the move thanks to the IEC TR 60083 Schuko plug. In addition, the charging cables are equipped with dust protection caps and tested for water resistance according to IP65 and shock resistance according to IK10. Even when connected, the electrical contact points are protected against the ingress of dust and splash water in accordance with IP65 and IK10. The scope of delivery also includes a durable, compact storage bag to neatly store the cable after charging. In addition, the product is TÜV and CE certified and comes with a 2-year guarantee*
