## LEDriving HL INTENSE H7/H18

Up to +350\% more brightness

More light allows to see farther and therefore react sooner. Signs, obstacles and hazards can be recognized sooner.Compared to minimum ECE R112

Very compact LED replacement for conventional H7H18 high and low beam lamps (2in1)
Reduced glaring thanks to an optimized light distribution

Cool White color temperature of 6,000 K

Better visibility thanks to daylight effect

5-year OSRAM guarantee

For precise conditions, please refer to www.osram.com/amguarantee

OSRAM's highest performing LED off-road retrofit lamp
With up to $+350 \%$ more brightness (compared to ECE R112) and a very compact LED replacement of conventional H7/H18 and $\mathrm{H} 4 / \mathrm{H} 19$ high and low beam lamps, the LEDriving HL INTENSE is OSRAM's highest performing LED off-road retrofit lamp ever! This LED retrofit lamp offers OSRAM top technology beam pattern as well as an easy installation with a wide OSRAM range of suitable accessories. Top thermal management technology with integrated active cooling - a high speed fan ensures maximized heat dissipation for more powerful performances. Also premium OSRAM quality, manufactured in a certified OSRAM production plant in Italy, and a 5 -year guarantee as well as a long service life. For precise guarantee conditions please refer to www.osram.com/am-guarantee.The LED high and low beam lamps by OSRAM replace conventional halogen lamps, are 12 V compatible and have a color temperature of $6,000 \mathrm{~K}$. With the latest LED technology and very compact design, these lamps allow a high compatibility and an easy installation for an even wider range of car models. These products do not have ECE approval and must not be used on public roads in any exterior application. Public roads use leads to cancellation of operating license and loss of insurance coverage. Several countries forbid sale and use of these products. Please contact your local distributor for further information.
