OSRAM

Start

Please start the LIGHTIFY App

OSRAM
LIGHTIFY™

Please ensure that you have installed the latest App version. For older App versions (until 1.1.0) the onboarding procedure is slightly different (1.Register, 2. Welcome to lightify, 3. Gateway)

Get started

Please choose "Get started"

Gateway

Scan the QR code or type in the serial number. Both are located on the back side of the gateway.

Next step via

Register

Further info for the registration you can find on
www.osram.com/lightify

After name, email- address, password (min. 6 digits) were inserted and "create my account" was pressed an activation code will be send to your email address.
If you did not receive the email please check your SPAM folder

LIGHTIFY   Onboarding Procedure

OSRAM

Welcome to LIGHTIFY

Check your email and type in the activation code. (copy / paste)

ISnjUSkQ

Welcome to LIGHTIFY!

Enter the Activation Code sent to your email

Next step via

Enter Activation Code

LIGHTIFY Activation

Install the Gateway

Plug in the gateway

Install your Gateway

Install your gateway by plugging it in one of your rooms

Next step via

Gateway Installation

Connect the Gateway with your Wi-Fi (WLAN) network

Please note the gateway password; shown on the screen

Now please go to your Wi-Fi (WLAN)   settings from your smart device and use the gateway information, shown on the screen to connect the gateway to your Wi-Fi (WLAN)   system.

Recommendation: copy/paste the password
Note : This is only necessary once and not required for later operation.

Go back to LIGHTIFY - App

Next step via

Please choose the network.
Please enter the password from your existing Wi-Fi (WLAN) system.

LIGHTIFY symbol on the gateway (front) switchs from orange to green, when network connection is succeeded.
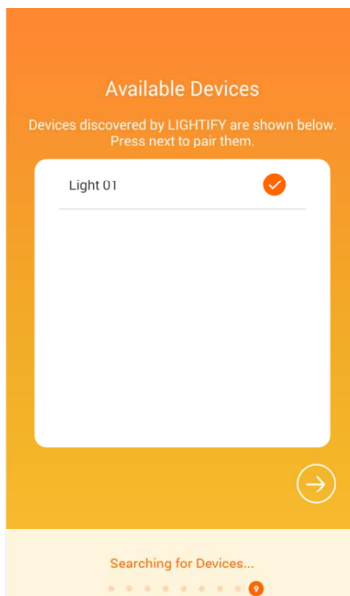

OSRAM

Last step

Plug in your LIGHTIFY™ product; screw in the LIGHTIFY™ lamps and switch on; light on
Please switch it off/on again in case it was on already on.

Next step via

When the LIGHTIFY product is integrated into the system it blinks once.

Process can take some minutes

In case that a light isn't shown please switch it off/on again.
Note: Lights can always be added later via the app as well.

Onboarding is finshed when touching:
